## "Secrets of the Dead"

Faceless, subhuman

Shattered souls I feed

Experimenting

Dead eyes watching me

Bow down

Sheep to the slaughter

Bow down

Follow the creator

Into the path of the unknown

Where they must walk alone

The unholy are lifeless

Sunken eyes dripping back

The secrets of the dead

Hopeless, disgusting

Pathetic human beings

Annihilation

Of what you believe

Now you will Bow down

Sheep to the slaughter

Bow down

Follow the creator

Into the path of the unknown

Where they must walk alone

The unholy are lifeless

Sunken eyes dripping back

The secrets of the dead

Secrets of the dead

Take control of my everything

Killing them systematically

My power is growing

Their blood is flowing

The unholy are lifeless

Sunken eyes dripping back

The secrets of the dead

They keep calling me back
