"That's Not How This Works"

Thought, the day you disappeared that it was over

Didn't even hear you leavin'

Saw you with someone and thought that it was closure

But you still tell me that you need me

Baby, why?

Tell me why can't you just make up your mind?

Quit messin' with my head

You can't say you hate me

Then call me when you're hurt

Baby, you know that's not how this works

No, that's not how this works

You can't walk away

Then come back to what we were

Baby, you know that's not how this works

No, that's not how this works, no
No, no, no, no, ooh, no, no, no, no
Baby, that's not how this works, no
That's not how this works, oh
Stop reminding me of when we said forever
I know exactly what you're doing
When you say you need to drop off all my sweaters
It's just one of your excuses
Baby, why?
Tell me why can't you just make up your mind?
Quit messin' with my head
You can't say you hate me
Then call me when you're hurt
Baby, you know that's not how this works
No, that's not how this works
You can't walk away
Then come back to what we were
Baby, you know that's not how this works (that's not how this works)
No, that's not how this works, no (that's not how this works)
Don't say that you're in love with me
(Say that you're in love)
'Cause I know it's not what you mean
You can't say you hate me

Then call me when you're hurt
Baby, you know that's not how this works
No, that's not how this works (works, baby)

You can't walk away

Then come back to what we were
Baby, you know that's not how this works
No, that's not how this works (oh)
No, no, no, no, ooh, no, no, no (hey)
Baby, that's not how this works, no (works)

That's not how this works, oh
No, no, no, no, ooh, no, no, no (ooh, oh oh)

Baby, that's not how this works
