## "Thousandfold"

Sprinkled by the trappings  
Of words that make the outlines  
Blur on the showplace of made history  
The folk is willed  
To parrot the dishes up tale  
The lure of a higher meaning  
Cheat to had to create  
An enemy stereotype  
To receive your absolution  
A frothy poor excuse for your foray  
To disengage from deeps  
Of your encumbrance  
Behold  
All our gold  
Thousandfold  
Bereave me  
Declined

Truths ensign

Forever mine

Bereave me

March in with ten legions

Whilst the crucial weapons not the pilum

But the feather held in your hand

Penned in blood

Your tall-tales rule the forum

Altering it into the battlefield

I, the spectral guise

Evoking these barring fears

Pestering your conscript fathers

I smile at my demise and while I die

I cherish the roots of my perseverance

Behold

All our gold

Thousandfold

Bereave me

Declined

Truths ensign

Forever mine

Bereave me

Behold

All our gold  
Thousandfold  
Bereave me  
Declined  
Truths ensign  
Forever mine  
Bereave me
