## "Uprising"

Warsaw Rise!

Do you remember when, when the Nazis forced their rule on Poland

1939 and the allies turned away

From the underground rose a hope of freedom as a whisper

City in despair, but they never lost their faith

Women, men and children fight

they were dying side by side

And the blood they shed upon the streets

was a sacrifice willingly paid

Warsaw city at war

Voices from underground

whispers of freedom

1944 help that never came

Calling

Warsaw city at war

Voices from underground

whispers of freedom

Rise up and hear the call

History calling to you

Warszawo, walcz!

Spirit soul and heart

in accordance with the old traditions

1944 still the allies turn away

Fighting street to street

in a time of hope and desperation

Did it on their own and they never lost their faith

Women, men and children fight

they were dying side by side

And the blood they shed upon the streets

was a sacrifice willingly paid

Warsaw city at war

Voices from underground

whispers of freedom  
1944 help that never came

Calling

Warsaw city at war  
Voices from underground  
whispers of freedom

Rise up and hear the call  
History calling to you  
Warszawo, walcz!

All the streetlights in the city  
broken many years ago  
Break the curfew, hide in sewers  
Warsaw it's time to rise now

All the streetlights in the city  
broken many years ago  
Break the curfew, hide in sewers  
Warsaw it's time to rise now

Warsaw city at war

Voices from underground  
whispers of freedom

1944 help that never came

Calling

Warsaw city at war

Voices from underground  
whispers of freedom

Rise up and hear the call

History calling to you

Warszawo, walcz!
