"Wither"

Let it out, let it out

Feel the empty Space

So insecure find the words and let it out

Staring down, staring down

Nothing comes to mind

Find the place turn the water into wine

But I feel I'm getting nowhere

And I'll never see the end

So I wither

And render myself helpless

I give in and everything is clear

I breakdown

And let the story guide me

Turn it on

Turn it on

Let the feelings flow

Close your eyes

See the ones you used to know

Open up open up

Don't struggle to relate

Lure it out

Help the memory escape

Still transparentness consumes me

And I feel like giving up

So I wither

And render myself helpless

I give in

And everything is clear

I breakdown

And let the story guide me

I wither

And give myself away

Light reflections on the cage

The worlds want to create

I drown in hesitation

My words come crashing down

And all my best creations

Burning to the ground

The thought of staring over

Leaves me paralyzed

Tear it out again
Another one that got away
I wither
And render myself helpless
I give in
And everything is clear
I wither
And render myself helpless
I give in
And everything is clear
I breakdown
And let the story guide me
I wither
And give myself away
Light reflections on the cage
The worlds want to create
The worlds which you create
Let it out let it out
