

All My Life - Lil Durk Lyrics

This Lyrics is downloaded from Showthelyrics.com check out for more lyrics

"All My Life"

Durkio told me he been on some positive shit, yeah, yeah
Lately, I just wanna show up and body some shit, yeah, yeah
Always been a lil' mathematician, lately, it's cash I'm gettin'
Got me losin' count of these bags, I've been movin' too fast
Hard times don't last, 'member when cops harassed
Talkin' out my ass, boy, you ain't shit but a bitch with a badge

All my life (all my life)

They been tryin' to keep me down (they been tryin' to keep me down)

All this time (all this time)

Never thought I would make it out (never thought I'd make it out)

They couldn't break me, they couldn't break me (no, no)

They couldn't take me, they couldn't take me (no)

All my life (all my life)

They been tryin' to keep me down (they been tryin' to keep me down)

I decided I had to finish, but the media called me a menace

I done sat with the mayor and politicians, I'm tryna change the image

You can't blame my past no more, I come from the trenches

Some said I'd never be a superstar

But I know I'm different (no, no, no)

I'm The Voice, but the system ain't give me a choice

Know some people that's still undeployed

I know a felon who tryna get FOID

Child support, your only support

For a visit, I'm goin' through courts

Went to jail, they was chainin' me up

And you know that I'm famous as fuck

See, how you gon' joke about stimulus?

But they really had came in the clutch

I know some kids wanna hurt theyself

Stop tryna take drugs, I refer to myself

Tryna better myself, tryna better my health, but

All my life (all my life)

They been tryin' to keep me down (they been tryin' to keep me down)

All this time (all this time)

Never thought I would make it out (never thought I'd make it out)

They couldn't break me, they couldn't break me (no, no)

They couldn't take me, they couldn't take me (no)

All my life (all my life)

They been tryin' to keep me down (they been tryin' to keep me down)

Yeah, first generation, ghetto nigga

Cole World, hello niggas

Made it out the city with my head on straight

Niggas keep shootin' up the lead out

Young Jordan Peele, gotta get out

But the shit that I spit out

Is a cheat code like I'm facin' a RICO and how a nigga put a hit out

And another one, and, and another one

I got like a hundred of 'em

'Bout to lap niggas so they think

They ahead of me, but I'm really in front of them

Now, some of them fumblin' they bags

Fuckin' up the little crumbs that they had

A reminder to humble yourself, this shit could be gone in an instant

Me, I'm runnin' long distance

All pistons firin'

I be stuck between maybe retirin'

And feelin' like I'm just not hittin' my prime
These days seein' rappers be dyin'
Way before they even gettin' they shine
I never even heard of lil' buddy
'Til somebody murdered lil' buddy
Now, I'm on the phone, searchin' lil' buddy name
Got 'em playin' his tunes, all day in my room

Thinkin', "Damn, this shit is wicked
To get they name buzzin' some niggas
Just gotta go lay in a tomb"
And media thirsty for clicks
I got a new rule
If you ain't never posted a rapper when he was alive
You can't post about him after he get hit
It's simple, it's the principle

On any tempo, I'm invincible
Don't even rap, I just vent to you
I rather that than an interview
Most days
Fuck 'em all like I'm goin' through a ho' phase
Young nigga shoot out the whip like road rage

I pray all of my dawgs stay so paid
And the only thing that kill 'em is old age

All my life (all my life)

They been tryin' to keep me down (they been tryin' to keep me down)

All this time (all this time)

Never thought I would make it out (never thought I'd make it out)

They couldn't break me, they couldn't break me (no, no)

They couldn't take me, they couldn't take me (no)

All my life (all my life)

They been tryin' to keep me down (they been tryin' to keep me down)
