"Love Galore"

I need, I need

I need, I need

I need, I need

I need, I need

I need, I need

Love, love, love, love

Long as we got

Love, love, love, oh

Long as we got

Done with these niggas, I don't love these niggas

I dust off these niggas, do it for fun

Don't take it personal

Personally, I'm surprised you called me after the things I said

Skrrt, skrrt on niggas {Yeah}, skrrt up on niggas {True}

Skrrt down, you actin' like me {Yeah}

Actin' like we wasn't more than a summer fling
I said farewell, you took it well {True}
Promise I won't cry over spilled milk (Ooh, no, I won't)
Give me a paper towel, gimme another Valium
Give me another hour or two, hour with you
Why you bother me when you know you don't want me? {Yeah}
Why you bother me when you know you got a woman? {Yeah}
Why you hit me when you know you know better? {True}
Know you know better {True}
Know your crew better than you do
Call me, lookin' for ya {Yeah}, I be lookin' for ya {Yeah}
Got me lookin' forward to weekends
With you, baby, with you, baby
With you, baby {True}, with you
We do whatever we want, go wherever we want
Love however we want, it don't matter {True}
You do whatever I want, get whatever I want
Get whatever I need, it's about

Love, love, love, love
Long as we got
Love, love, love, oh
Long as we got

Should have never gave you my number, I did it with you, ooh

Should have never let you hit it, I split it with you

I regret it, you gots a fetish

You gots a problem, now it's a problem, oh, no

Skrrt, skrrt on bitches (Yeah)

I don't know these bitches (Yeah)

Dig dirt on bitches, do it for fun

Don't take it personal, baby

Love on my ladies, luh-love to my ladies, uh (True)

Dated a few (Straight up)

Why you bother me? Why you bother me? Why you bother me? (Why you
bother me? Yeah)

Last time I checked, you were the one that left {The one}

Me in a wreck (Yeah), me in a mess (Yeah, yeah)

You all I rep (Yeah), like my side I rep (Yeah)

Yeah, that's that Mo City that side, that you can't come 'round at night, yeah
(It's lit)

You like to get me high, you don't want no one beside ya

You like when I make fire, you say, "La Flame, keep makin' fire" (Ooh)

Let me cum inside ya, let me plant that seed inside ya (Ooh)

Ass and titties, titties, only thing that stuck with, with me (With me)

Only thing that was real, only thing I could feel, ya feel me? (Yeah, feel me?)

So why you bother me, why you bother me? {With you, baby}

Tryna catch a P.O.V., yeah {With you}

Love, love, love, love

Long as we got

Love, love, love, oh

Long as we got (Love)

I came to your city, lookin' for lovin' and licky

'Cause you promised to put it down

All up in your city, lookin' for you, uh

Searchin' for you like love

Only thing keepin' me from droppin' you right now

Right now (Love)

Only thing keepin' me by your side

Only thing keepin' me by your side now

But see, Solána, if you don't say somethin', speak up for yourself

They think you stupid, you know what I'm sayin'?
