"Massive"

The best of you (The best of you)

Never did much for you (Never did much for you)

I guess it's true (I guess it's true)

You can't really change the person you'll be

The least I can do is cut myself free

I heard the screaming in my dreaming every night

I awake, and still mistaking you for right

The worst of me (The worst of me)

Forget my best today (Forget my best today)

Don't laugh, you'll see (Don't laugh, you'll see)

I'll carefully choose the words that I say

Try to pretend it all is okay

I heard the screaming in my dreaming every night

I awake, and still mistaking you for right

Broke myself and hoped I still could save some pace
Now I'm floating and controlling in this state of grace

I heard the screaming in my dreaming every night

I awake, and still mistaking you for right

Broke myself and hoped I still could save some pace
Now I'm floating and controlling in this state of grace
