"Satisfaction"

Now I'ma do this thing like it ain't done before

Never leave the game stranded, I had to give more

I'ma give you what you want, what you waitin' for?

Make the music that the people can't ignore

A lotta niggas is bitches, a lotta bitches be trippin'

A lotta them be wishin' that they was in my position

A lotta niggas be cowards and most chicks be chickens

Fuck 'bout the CLUCK! CLUCK! Eve ain't trippin'

Most dudes is okay (Half of the rest ain't)

Talkin' 'bout what they wanna do (Reality they can't)

Ask 'em what they life worth, watch 'em draw a blank

I really ain't got no interest if it don't involve the bank

Most of the time I'm nice to 'em (Half the time I'm not)

It ain't nothin' new though (Learned it from off the block)

People think I changed much 'cuz I'm livin' good

Now they get my voicemail, hear them callin' me rude?

Sometimes I feel bad (Most of the time I don't)

'Cuz if I don't protect my shit (Other niggas won't)
Some want me to neglect my shit (Take it for a joke?!)
But I'm stayin' on the grind (Never goin' back to broke)

Anything I want

I'ma get it 'cuz I know I need it

It's Evey comin' and I know you heated

Anything I need

Gotta have it, bet I'm gonna grab it

Ain't nothin' better than the satisfaction

Everything I am

Just because I had to make it happen

They never thought that I would make it rappin'

Anything I need

Gotta have it, bet I'm gonna grab it

Ain't nothin' better than the satisfaction

Now I'ma do this thing like it ain't done before

Never leave the game stranded, I had to give more

I'ma give you what you want, what you waitin' for?

Make the music that the people can't ignore

See how we do this thing dog, here we go again

Dre and Bombshell, don't you love how it blend?

Radio stations, DJ's they spin
Told y'all determined to win
You tryina enter through the back door?
Ain't nothin' happenin', this whole shit is my shit bitch and I'm the captian
Can't beat me join me baby then get to clappin'
Bang it in ya whip to get ya neck snappin'
I know you hopin' that I rest so you can breathe
Stressed when we in the same places 'till I leave
Whisper to they friends what they wanna do to me
Wish they could erase me, take away the air I breathe
And I feed 'cuz that shit only give me hunger pains
Never let you muhfuckas put out my flame
Ready for whatever, was trained to maintain
And I always been a savage 'bout the fame
Separate the girls from the women and the winnin'
Always knew the thrill was worth it from the beginnin'
Baby what's the deal I'm hurtin' 'em how I'm livin'
I gotta conquer it all now the world's my mission'

Anything I want

I'ma get it 'cuz I know I need it

It's Evey comin' and I know you heated

Anything I need

Gotta have it, bet I'm gonna grab it
Ain't nothin' better than the satisfaction

Everything I am

Just because I had to make it happen
They never thought that I would make it rappin'

Anything I need

Gotta have it, bet I'm gonna grab it
Ain't nothin' better than the satisfaction

Ain't nothin' hotter than this heat y'all, it's like a magnet

I don't really mess wit too many 'cuz they be plastic

That's it enjoy it boy, it's like magic

Anything less than a banger will not have it

Still I Ruff Ryde but I got my team

And we ain't goin' nowhere 'till we lock the game

But in the mean time ball while we live the dream

And now I need to hear y'all sing

Anything I want

I'ma get it 'cuz I know I need it

It's Evey comin' and I know you heated

Anything I need

Gotta have it, bet I'm gonna grab it

Ain't nothin' better than the satisfaction

Everything I am

Just because I had to make it happen

They never thought that I would make it rappin'

Anything I need

Gotta have it, bet I'm gonna grab it

Ain't nothin' better than the satisfaction
