## "My Will Be Done"

Meum voluntatem ventura

Meum voluntatem ventura

Meum voluntatem ventura

Meum voluntatem ventura

In Christum dominum

Ex sactum nominum

In rhymes of praise we bring the final hour

In Iesum dominum

Ex bellum oremum

In times of war we strike with sancted power

When from the sacristy I rise

To bring the final sacrifice

Sing words of praise to glorify my name and

Stand still

Sacrificed to my will

Sainted be what I say

Preaching

My will be done – here and all my life in heaven

My will be done – Christ our saviour bring the sacrament for

My will be done, I command you – will be done

Fugare luminum

Extatum nocturnum

With hearts awake create the highest tower

Peccatum nominum

In mortum animum

No swords can break the will to rising power

When from the sacristy I rise

To bring the final sacrifice

Sing words of praise to glorify my name and

Stand still

Sacrificed to my will

Sainted be what I say

Preaching

My will be done – here and all my life in heaven

My will be done – Christ our saviour bring the sacrament for

My will be done, I command you – will be done

My will be done, will become, will be praised forever

My will be done, Lord in heaven

My will be done, will become, will be praised forever

My will be done, Lord in heaven

My will be done – here and all my life in heaven

My will be done – Christ our saviour bring the sacrament for

My will be done, I command you – will be done
