"The Hillbillies"

(We can't see from here right now)

I don't buy much, I buy land, bro

Cologne, Germany (Send it off from here right now)

Four McDonalds, every time I land, bro (Here right now)

Big Jay Rocks in both hands, bro, and all that (And free your mind)

And I'm best-dressed, movin' forward, yeah

Tiny Taz Arn', yeah, all that, Compton cowboy, all that

Yeah, big protein (And you w—, and you w—)

One-hundred and fifty grams of protein (Uh)

Y'all gotta stop playin', bro, I swear, bro

Uh, we gon' fuck up the world

Excuse me, but is that your girl? If she tell, that's a good referral

Heebie-jeebie talk crazy to me, but Kendrick know I like irregular girls

I'm not good with the regular girls, damn near want a veteran girl
I just might change your life, we ain't wearin' no Giuseppe jeans
We ain't doin' none of normal things, do you know what formal means?
Critics sayin' that I lost the plot, principles, yeah, I'd rather not
Messi, 'bout to come in hot (Please don't live in—, please don't live in fear)

'Dot, uh, we gon' fuck up the world (We can't see from here right now)

Excuse me, but is that your girl? (Here right now)

Didn't mean to possess your girl

Baby, I'm high-profile, don't ever tell 'em you met me, girl

(Send it off from here right now)

They gon' think that you rep me, girl, 5'7", I'm Messi, girl (Here right now)

I'ma pass you to Neymar, he got time for your bestie, girl

(We can't see from here right now)

Niggas know that I'm best-dressed, too high-profile to access (Here right
now)

I ain't even gotta fact check, all I'm wearin' is Wales Bonner

(Send it off from here right now)

Feelin' good, I might wear no— (Here right now)

Matter of fact, let's stay platonic

I just fucked, ain't that ironic? You can pick the bunk or bed
Either way, I'ma want some head, Messi live through me instead
We grew up 'round triffin' hoes, you ain't did nothin' that I don't know
It's cool, baby, I'm too high-pro', I'm Baby Keem, I wouldn't call it close

Messi, get them girls off the stage, 'cause somebody's gonna get taken
Somebody's gonna invade on a one on one conversation
I'm ducked off from the world, I'm immersed in the PlayStation (Please don't
live in—)
And I ain't worried 'bout her, it's a thousand hers out waitin' (Please don't
live in fear)

We gon' fuck up the world (Here right now)
Excuse me, but is that your girl? (Here right now)
Didn't mean to possess your girl
Baby, I'm high-profile, don't ever tell 'em you met me, girl (Send it off from
here right now)
They gon' think that you rep me, girl, 5'7", I'm Messi, girl (Here right now)

Famous, but I'm not for sale, why you tryna possess me, girl? (And free your
mind)

I mean, you know what upset me, girl
Was like that when you met me, girl
'Cause he'll put you in princess shoes
Elevate you, respect you too
Here's ten K, I'm in a sexy mood
Don't let the homies touch you, move
Yeah, niggas know that I'm best-dressed
Wear Martine when I board jets
They sardines and I'm big fish, eat caviar when I'm depressed
Take selfies, I'm in Czech Republic, Cornell, he gon' check the budget
Borrowed two-million from my cousin, never gave it back, 'cause it's nothin'
Fuck it (Yeah), new devotions (Uh-huh)
Huh, keepin' focus (Please don't live in—)
Starship, is that a foreign? (Please don't live in fear, a foreign)
Huh, she's organic, skin is glowin', my heart is goin' (Like wow)
(We can't see from here right now)
Split personality, two phones, two emotions (Like how?)
Girl, you get the notion (Aroused), it's not hard to notice (Yeah, yeah)
(Send it off from here right now)
That's a deep, deep, deep, deep, deep ocean (That twat)
Shorty say she celibate, I'ma keep hopin' (And free your mind, she's not)
Shorty say she in love with me, I'ma be open (I'll try)
(And you w—, and you w—)

Messi, get them girls off the stage, 'cause somebody's gonna get taken

Somebody's gonna invade on a one on one conversation

I'm ducked off from the world, I'm immersed in the PlayStation

And I ain't worried 'bout her, it's a thousand hers out waitin'

(Send it off from here right now, here right now)

(And free your mind)

(And you w—, and you w—)
