## "Party Girl"

No more backs on the wall (no)  
Come pull me close to you (rock)  
Rock me deep into the morning (rock)  
'Cause by sunrise I'll be gone  
I wanna be leaving with someone  
I'm here for a good time and you know we both want it

And plus I like to sightsee and if you invite me  
I'll very likely pull up where you at  
You got the right fee or if you entice me  
End of the night might sit this on your lap  
Staring at me too long might get you in trouble  
I'm hypnotizing, I'm just talking facts  
Nightly you'll sight me anywhere you might be

Can't forget about the party girls out lighting up the world  
Let's hear it for the party girls out lighting up the world (all the party girls)  
Ah-ah, ah-ah, ah-ah-ah-ah-ah-ah-ah  
Ah-ah, ah-ah, ah-ah-ah-ah-ah-ah-ah

Now from this tune come on me want everybody in the dancehall right now  
tonight

Lighter in the sky  
If you're with your lover, if you're with your girl  
If you're with your brother, if you're with your sista, mayday

Got to get the feeling and the mood right  
Want to know what a true Jamaican night life is like  
Alright, work hard play hard, don't need no sponsor  
Life of the party girl, you're sweet like sugar

Put the s in sexy girl, me love that figure  
When you whine and go down, come up and bend over  
True the party cyan start til' you deh bout ya  
Sexy up jacuzzi pool side and sauna  
So, who make the party start get it hot like fire?  
Who makes the rude boys and spend a lot of dollars?  
Girl pretty in their face, they look fine and proper, yeah  
Dress to impress and every man admire  
We say no low vibes come up we lift this higher  
Burn down the whole club and set the roof on fire

Can't forget about the party girls out lighting up the world (up the world)  
Let's hear it for the party girls out lighting up the world (give it to them  
girls)

Ah-ah, ah-ah, ah-ah-ah-ah-ah-ah-ah  
Ah-ah, ah-ah, ah-ah-ah-ah-ah-ah-ah

Big up to the one Victoria Monét  
Dunnoe seh you come out and you looking pretty and you looking nice  
Love op yourself for the rest of your life  
All the party girls all over the world  
American girls, London girls, African girls, island girls, Asian girls  
To the party girls (to the party girls)  
All around the world (all around the world)  
That like to twerk (that like to twerk)  
And a sing sing sing (Ooh)  
I like the girls who like to party  
I like the girls with the body (we like the girls who like to party)  
I like the girls who like to party (oh)  
I like the girls with the body (we like the girls who like to party)
